Schedule posts

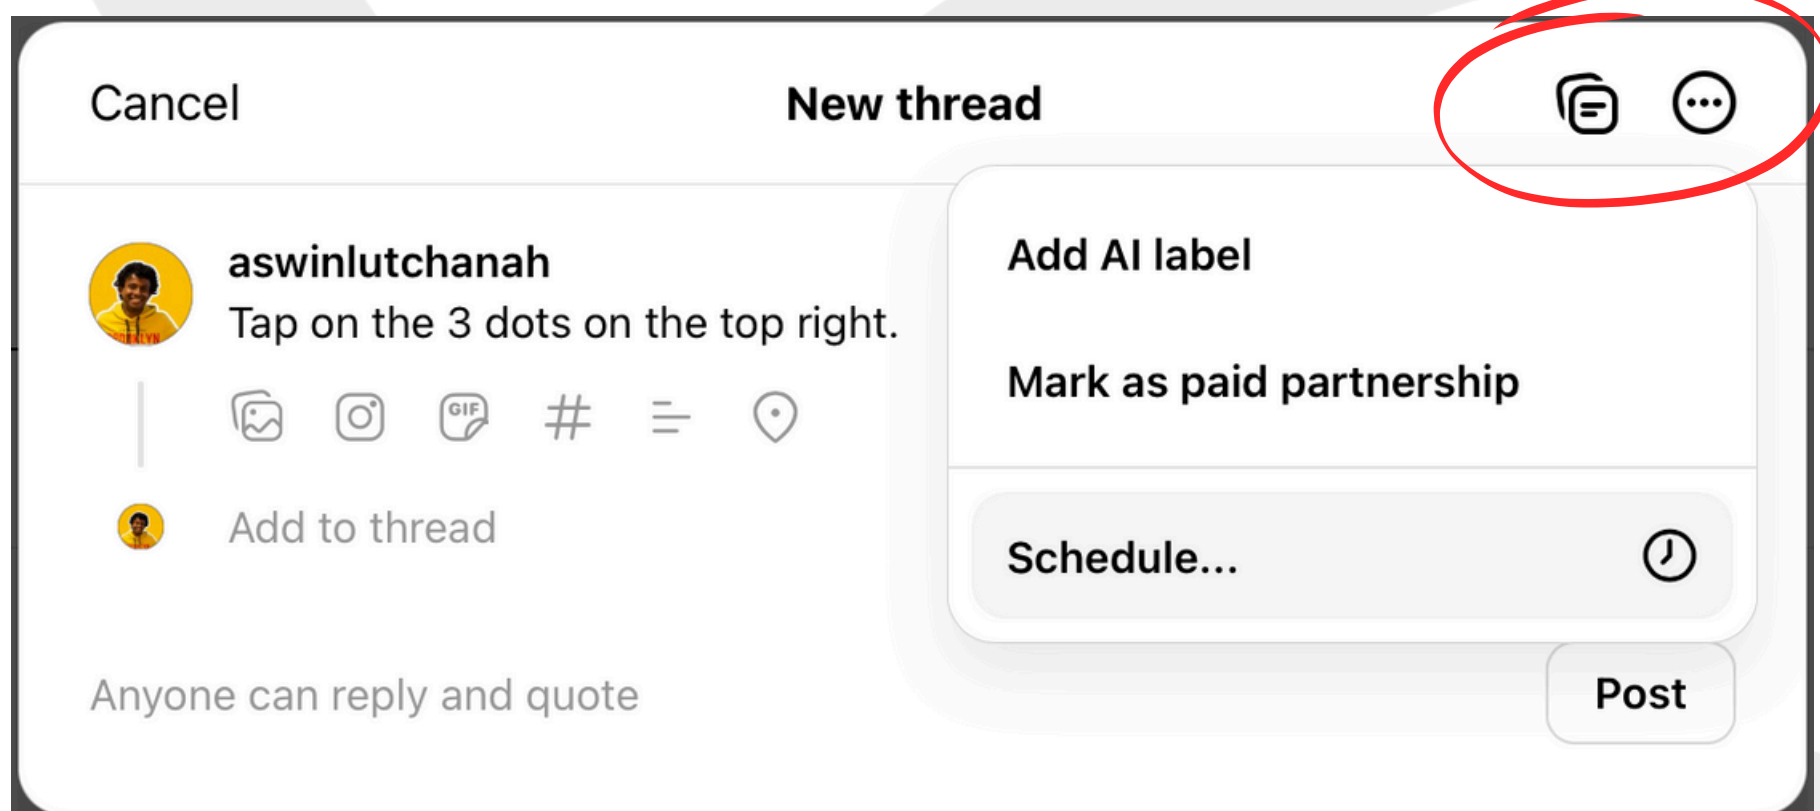

Social Media Managers
will love it ...

Schedule posts on Threads and update or delete them before they are published.

1. Schedule Posts

Creators and brands can now plan and schedule their Threads posts:
Tap on the 3 dots on the top right.

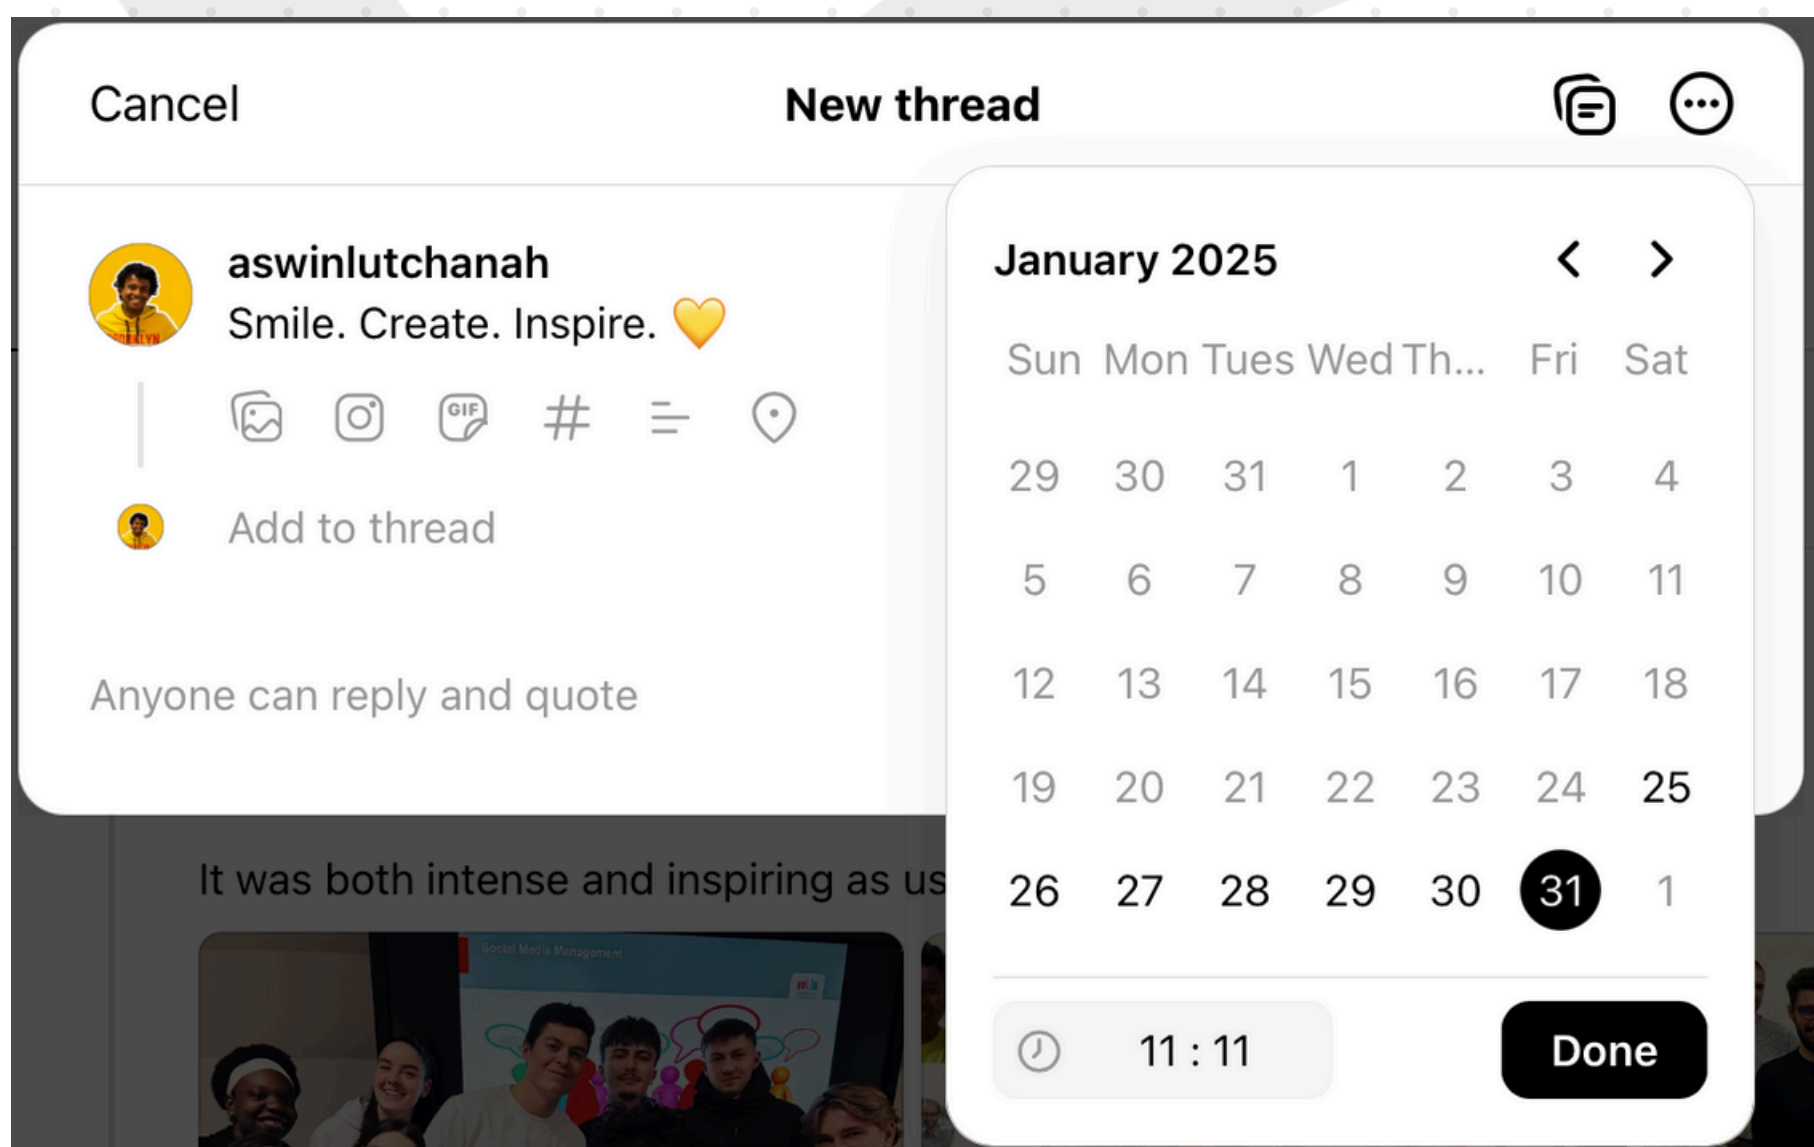

Schedule posts on Threads and update or delete them before they are published.

2. Choose date & time

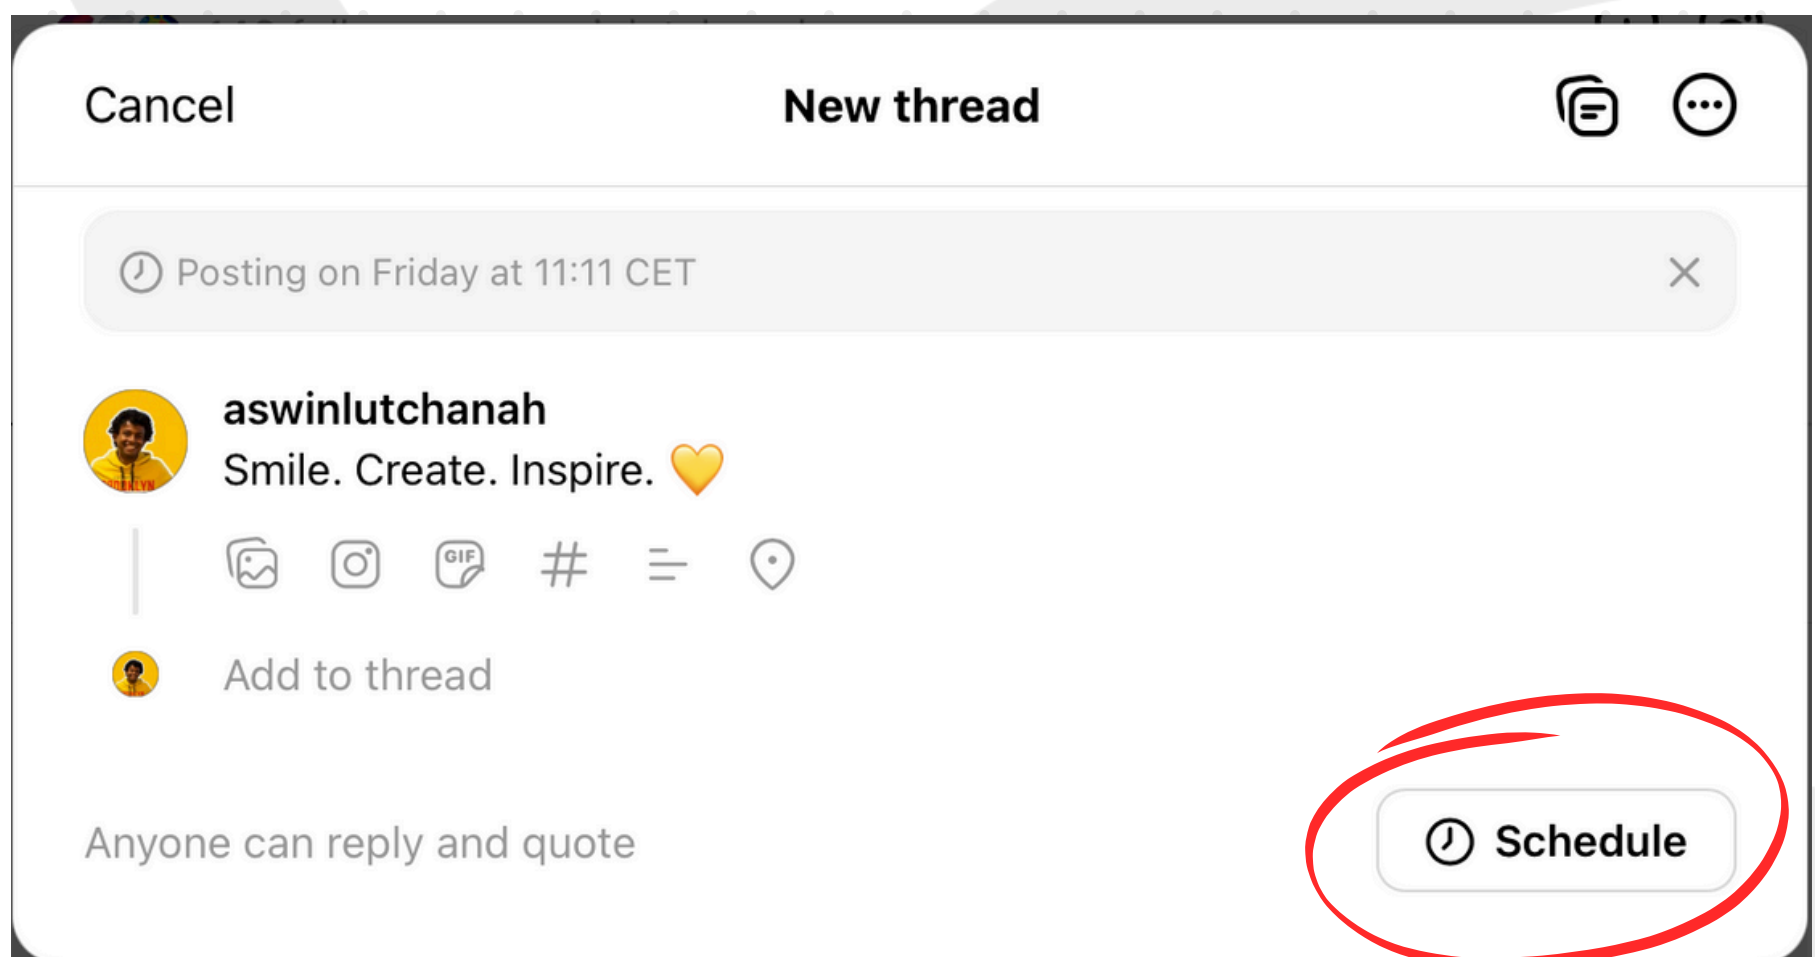

Choose date and time in the future on the date picker.

Schedule posts on Threads and update or delete them before they are published.

3. Schedule button

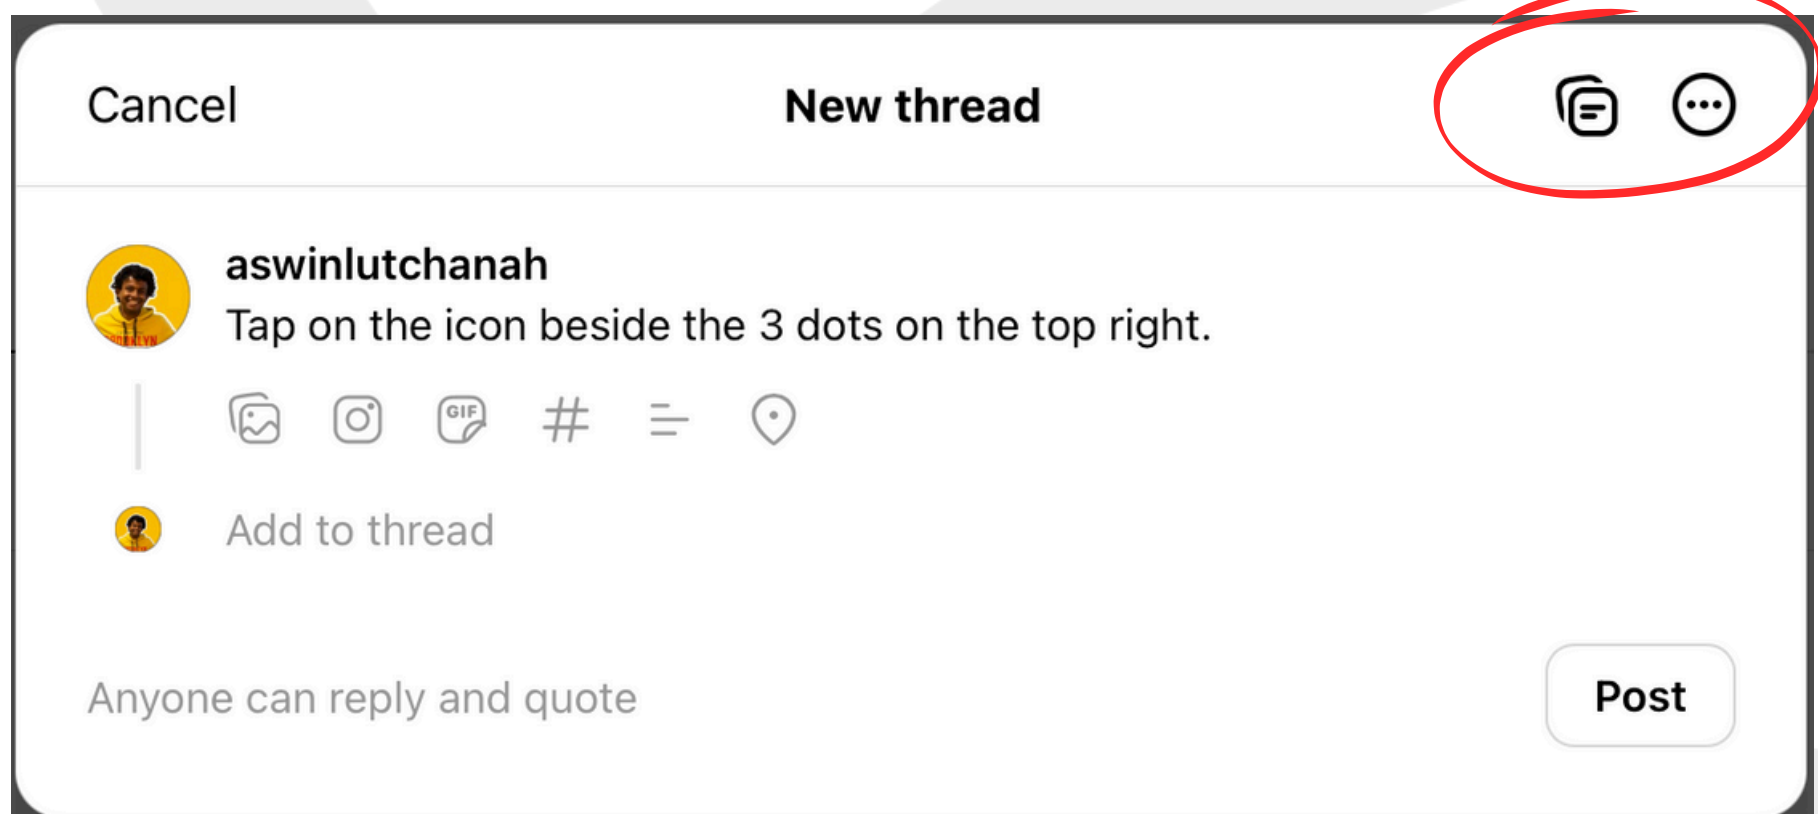

Draft your post & tap on the **Schedule** button.

Schedule posts on Threads and update or delete them before they are published.

4. Access scheduled posts

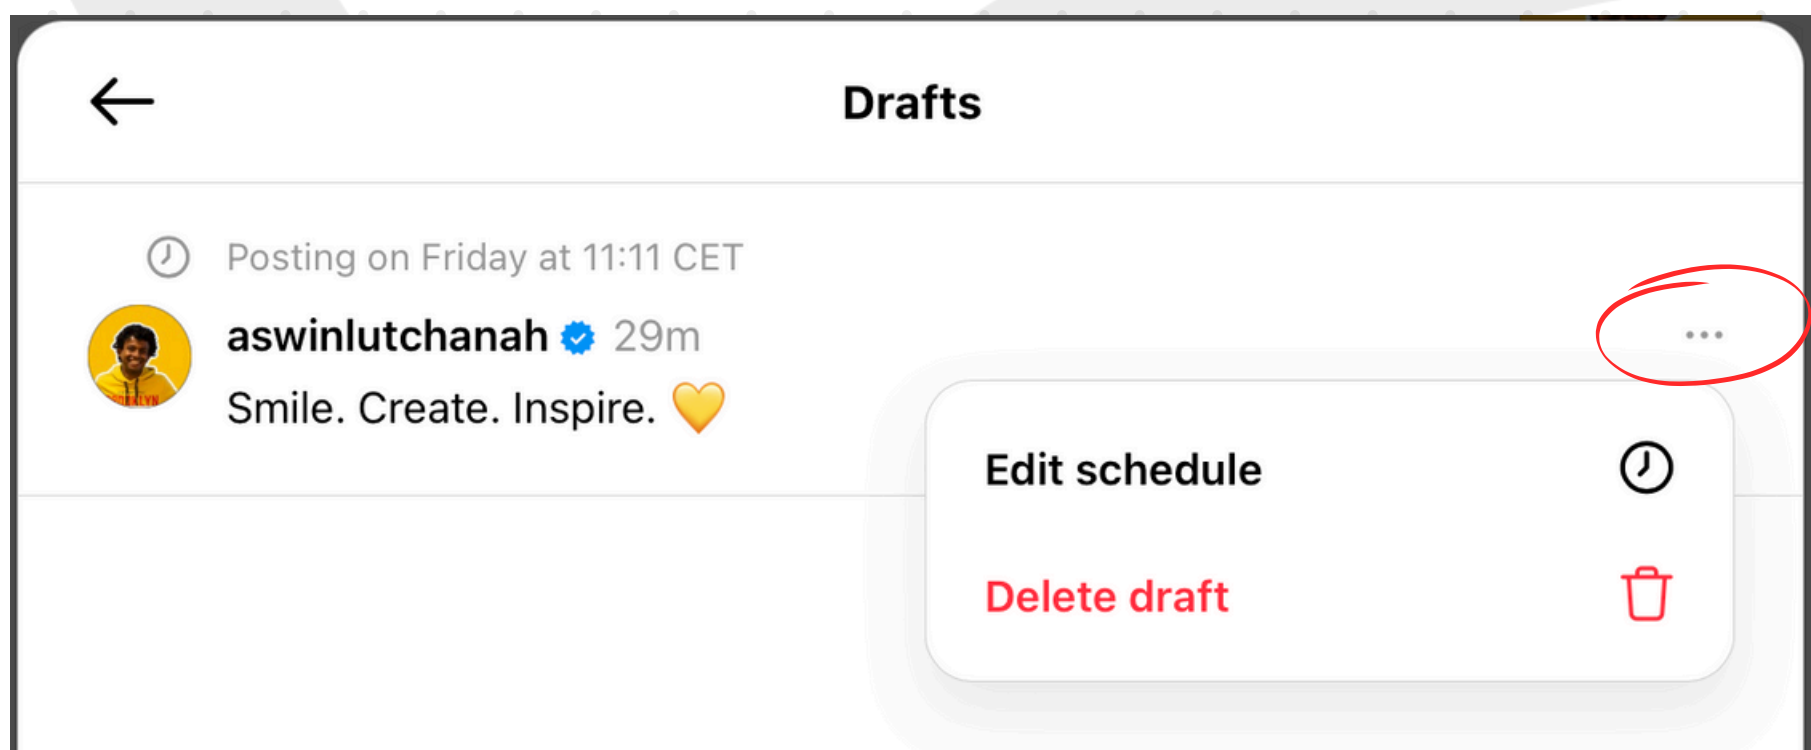

Tap on the icon beside the 3 dots on the top right to access all your scheduled posts.

Schedule posts on Threads and update or delete them before they are published.

5. Edit or Delete

On the right of each scheduled post, you have 3 dots. Tap to edit or delete your scheduled post.
